• CAREER OBJECTIVE -

To secure an entry-level position as an **Agentic Software Engineer or Full Stack Developer**, where I can apply my skills in Python, JavaScript, Machine Learning, NLP, React.js, Django, and Flask to develop scalable AI-driven applications and web solutions. With a strong foundation in data structures, algorithms, backend development, and responsive web design, I aim to contribute effectively to a fast-paced engineering team. I bring strong problem-solving skills, adaptability, and a commitment to continuous learning, and **I am ready to join immediately.**

• SKILLS -

Technical Skills - Programming Languages (Python | Java | JavaScript | TypeScript | SQL) | **AI and ML** (NLP | PyTorch | TensorFlow | LangChain | OpenAI API | Prompt Engineering | AI Chatbot Development) | **Full-Stack and API Development** (Django | Flask | RESTful APIs | React.js | HTML | CSS) | **Databases** (MySQL | MongoDB)

Tools and Platforms - (Git | GitHub | VS Code | Jupyter Notebook | Power BI)

Core Competencies - Analytical Thinking | Problem Solving | Continuous Learning | Project Coordination and Team Collaboration | Dashboard Design and Data Visualization | Content Creation and Video Editing | Graphic Design Basics | Exploration and Implementation of Emerging AI Tools and Technologies

• EDUCATION -

- **Bachelor Of Technology** - Sri Venkateswara College of Engineering and Technology, Chittoor, AP **CGPA: - 8.74** (2022-2026)
 - **Intermediate (MPC)** - Mother Theresa Junior College, Chittoor District, Andhra Pradesh **CGPA: - 7.0** (2020-2022)
 - **SSC (X-Board)** - Sri Chaitanya Children's Academy, Chittoor District, Andhra Pradesh **CGPA: - 10** (2019-2020)
-

• PROJECTS -

- **Smart India Hackathon – Learning Platform with Gamification:** Built a gamified learning platform using Django REST APIs and NLP with a chatbot-based museum ticketing system to improve efficiency and reduce costs.
 - **Digital Literacy – Learning Platform with Gamification (Internship):** Developed a full-stack web application using React.js and Django REST APIs with NLP chatbot integration and gamification features to enhance user engagement.
 - **CV Infinity Boost – AI-Powered Resume Screening System (Internship):** Created an AI-based resume screening system using LLMs, LangChain, Pinecone, and FAISS for semantic search, candidate matching, and ranking via Streamlit.
 - **Smart India Hackathon – AI-Powered Farming Assistant:** Developed a multilingual AI-powered web application using OpenAI API and Supabase with conversational and voice support, real-time query handling, authentication, and responsive UI.
 - **EMPAI –** AI-powered business intelligence dashboard that analyzes user data and generates visual insights, charts, and predictive analytics to support data-driven decision making.
-

• CERTIFICATES & ACHEIVEMENTS -

- 5-Star Python Problem Solving – **HackerRank** (Dec 2024)
 - Smart India Hackathon Participation and Certification – **Government of India** (Dec 2023)
 - Problem Solving and Algorithmic Coding (Python) – **Self-Driven GitHub Projects** (Jan 2024)
 - Python Development – **Techno Hacks Edu Tech** (Oct 2023)
 - Python Basics and UX Design – **Infosys** (Dec 2022)
 - Software Development Challenge – **Flipkart Grid 5.0** (May 2024)
 - Artificial Intelligence Internship – **CollegeTips.in** (Jun 2025)
 - Aptitude Test Participation – **Naukri Campus** (May 2025)
 - Project Management Fundamentals – **IBM** (Oct 2023)
-

• WORKSHOPS -

- 1-day workshop on Getting Started with Enterprise-grade AI - IBM (Aug 2024)
 - 1-day workshop on MATLAB - Sri Venkateswara College of Engineering and Technology (Jun 2023)
 - 1-day workshop on AI Tools and It's Importance – TAP Academy (Dec 2025)
-

• INTERNSHIPS - CollegeTips.in (Internship) – Web Development Intern (May 2025–Jun 2025)

- Built responsive web pages and AI-powered chatbots using no-code and automation platforms – Implemented AI-driven user interaction workflows to enhance user experience – Collaborated remotely using Canva and digital tools to strengthen communication, leadership, and project coordination skills.
- **Unified Mentor Pvt Ltd (Internship) – Full Stack Development Intern** (Apr 2025–May 2025)
- Developed full-stack web applications using React.js, MongoDB, HTML, CSS, JavaScript, and Razorpay API – Implemented frontend and backend features with REST-based integration – Used Git and GitHub for version control and team collaboration – Demonstrated strong problem-solving, creativity, and communication skills – Awarded Letter of Recommendation for outstanding performance and timely delivery.
